FROST-BITE REMEDY

The Salt Lake Tribune of recent ate prints the following sent in by subscriber:

I have been deeply grieved to hear of so many persons, both in our community and class here, who nve been so hadly frozen that am putation of hands or feet was need sary and I am sending this article. iar Mechanics, and I hope it may be of some use to some one. I cannot venets for the officiency of the treatment, but it seems so simple

a trial "A frozen member of the humas body, foot, ear or hand, can be safeh well out by immersing the ember in coal oil and keeping it

here until the frost is nit drawn it of the member into the oil This is an unkle, or a hand frozen to wer the community that will be hard he wrist. It takes about as long to the o draw out the frest into the oil as absolutely a safe rounds and on or per the surgion's knife. had results follow. This is no h TERR, of the writer may a man t the Wellers. He was found in the frost manufeava our without to minbeing a finger tip."

# GOLD VALUES

In agirs of the inclement weather hat has prevailed since the first of he your, the work of sinking the buft of the Gold Belt Divide Mining The following are the classic empany has been prosecuted with a the first station level. The Gold Rel operty consists of the four clain high originally constituted the K. V. group, lying between the Gold am group and the claims which euro purchased during the Divide or thament by officials of the Tono sah Mining company. The newly or anized company, the Gold Belt, is onirolled by prominent Los Angele meiness men, including F. H. Mar ince. president; R. T. Leonards Pasurer; Leonardo Martinoe and dward Sanderson, of Long Beach alifornia. These gentlemen, with Thurles Kielhofer, secretary, and Walter R. Vickers, vice-president of Tonopah, constitute the board of lirectors Mr. Kielhofer, one of the ioneers of the Divide district, and its associates have the greatest faith in the merits of the property and have made plans for deep de-

velopment A visit to the mine was made on Sunday last by a represer the press of Tonopah, and the new work was fully inspected. From the top to the bottom of the shaft, which s closely following one of the walls of the ledge, a 6-inch streak of quartz, carrying free gold, has been persistent, and the officials believe that within a short distance they will be in shipping ore. The veln seems to be improving with each foot of ore gained, and it is report ed that the entire bottom of the shaft is in milling ore. A recent as my taken from the quartz showing in the shaft was sent to San Fran isco and returned \$84.98, of which \$64 was in silver. Mr. Kielhofer is at present in San Francisco making arrangements for the installation of machinery on the property.

The Gold Belt Divide claims are in one of the most favorable locations in the Divide district, being situated almost on a direct line be tween the center of the ill-tri where the famous Tonopah Divide mine, with its enormous ledge of silver and its high-grade gold veins, is situated, and the Klondyke district The ledge upon which the Gold Bell Divide is now sinking is traceable on the surface for a distance of 6000 feat, heading straight toward the old Golden State mine, from which the Knox Divide company has been shipping 400 tons weekly. The property also joins, as before stated, the Gold Seam group, which has fine ore on the 185-foot level, where a vein 11 feet wide averaged \$51 per ton as it was broken down.

The aer being employed as a carpenter name of his successor har not been

nade by the public service commis on of Nevada during the confer nce regarding ore rates held in F11-tf vada Copper Belt Railroad company has hied reduced rates on all ore acceeding \$100 in value from points HARD BY INFLUENZA on that road to Wabuska, Nevada The new schedule provides one rate ore from \$100 to \$200 nd for ore in excess of \$300, 2 pe ent above the rate for ore of \$100 o \$300 valuation. Formerly the rate raded up from \$100 to \$300 and in xcess of \$300 the rate was 4 per ent above the value for \$300 ore. This amounts to a substantial reducon on all values of ore affected by he new schedule of rates. From Judson to Wabuska the rate foruerly graded up from \$2.50 per ton or \$100 ore to \$4 per ton for \$300 erer now all these grades carry the 2.50 rate and for one in excess of 3000, only 2 per cent is added, in place of 4 per cent formerly in efect From Yerington to Wabuska he rate on \$100 oro was \$1.30 and n \$300 ore it was \$2.50, whereas ow all ore from \$100 to \$300 value arries the \$1.20 per for rate

The Copper Belt raliroad is to commended for this action in encavoring to bring about a revival f mining activity in the territory it orgen.
